## MEMORANDUM

2006-002

TO: Clark County School District's Food Service Department

FROM: Pat Cook, Consultant  
Office of Child Nutrition and School Health

SUBJECT: Alternate Verification Reporting for Large School Districts

---

On December 6, 2004, National School Lunch Program Memorandum 2005-27, provided information on the new verification requirements in the Child Nutrition and WIC Reauthorization Act, including the alternate verification sample sizes available to local educational agencies (LEA's) meeting certain conditions.

Attached is a list of LEA's which potentially will have more than 20,000 children approved for free or reduced-price meals by application as of October 1 of the school year. These LEA's are eligible for the alternate sample sizes in SY 2006-2007 if they improve their verification non-response rates by 10 percent this year (SY 2005-2006).

As a reminder, the law also contains a provision which permits large LEA's to qualify for alternate sample sizes this year only (SY 2005-2006) if they attempt to "directly verify" all approved applications selected for verification through the use of public agency records from at least two of the following programs: food stamps; the Food Distribution Program on Indian Reservations; a State Temporary Assistance for Needy Families (TANF) program; and the State Medicaid program.

For this year and future years, all LEA's will be able to qualify for alternate sample sizes if their non-response rate from the preceding year is less than 20 percent.

## SFAS WITH MORE THAN 20,000 ELIGIBLE BY APPLICATION IN SY 2004/2005
